01 SMART goals

MONTH 1 BUYS THE BASELINE

Large, well-defined query space, and the one differentiator no competitor matches — three conversation languages.

DAYS 0–30 · LEARNING

Absorb the beginner and exam-prep queries into negatives.

Measure: Beginner-intent terms below 10% of spend by day 30.

Why: They are the single largest source of waste in this ad group.

By: day 30 from launch.

DAYS 31–90 · PERFORMANCE

Prove the language angle converts better than the generic one.

Measure: testflight_click rate above the Shy campaign by day 90.

Why: If it does not, the persona split is not earning its complexity.

By: day 90 from launch.
