SMART goals

MONTH 1 BUYS THE BASELINE

The largest share, because he is the only persona who can expense the outcome. Commercial intent is real here.

DAYS 0–30 • LEARNING

Establish that professional intent converts at a viable cost.

Measure: A cost per testflight_click you would pay again, recorded by day 30.

Why: If the best persona cannot clear the bar, none of the others will.

By: day 30 from launch.

DAYS 31–90 • PERFORMANCE

Turn installs into revenue, not just installs.

Measure: First paid conversion attributable to this campaign by day 90.

Why: He is the most likely of the five to pay. That is the whole reason for the budget share.

By: day 90 from launch.

CAMPAIGN LEVEL

ADD BEFORE LAUNCH

shy, social anxiety, glossophobia, fear of public speaking, stage fright, toastmasters, speech therapy, stutter, elocution, accent

He does not believe he has a problem with people. He believes he has a problem being heard, and anxiety framing makes the ad about somebody else.
